DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-11, 22-71, 82-91, and 101-120 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 20 and 24 of copending Application No. 10/457,935. Although the conflicting claims are not identical, they are not patentably distinct from each other because they claim the same recording medium comprising a first patterned layer, a semi-reflective alloy, a second patterned layer and a reflective layer where the silver alloy is formed of the same material.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claims 1-5 and 9-11 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 5 of U.S. Patent No. 6,790,503. Although the conflicting claims are not identical, they are not patentably distinct from each other because they

claim the same recording medium comprising a first patterned layer, a semi-reflective alloy, a second patterned layer and a reflective layer where the silver alloy is formed of the same material.

Claims 1-5 and 9-11 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 10 of U.S. Patent No. 6,764,735. Although the conflicting claims are not identical, they are not patentably distinct from each other because they claim the same recording medium comprising a first patterned layer, a semi-reflective alloy, a second patterned layer and a reflective layer where the silver alloy is formed of the same material.
